MAY 2 1985

N/S 525

Jim Rabideau  
Prosecuting Attorney's Office  
Franklin County  
P.O. Box 1160  
Pasco, Washington 99301

Dear Mr. Rabideau:

This letter is in follow-up to our telephone conversation on April 2, 1985. As we discussed, the Environmental Protection Agency (EPA) is planning an investigation at Resource Recovery Corporation's former hazardous waste disposal areas in the Pasco Sanitary Landfill. The objective of this field investigation is to determine if hazardous materials have migrated from the disposal areas.

I have scheduled a meeting on May 8, 1985, with state and county officials to describe this project and solicit their comments on the draft workplan. Final comments will be due to EPA no later than Friday, May 17, 1985. Once final plans are in place, the plans will be made available to the public.

I hope this answers your questions. Please call me at (206) 442-2712 for further information if necessary.

Sincerely,

Lori Cohen  
Superfund Site Manager
